## TOWN OF KEWASKUM – TOWN ENGINEER WASHINGTON COUNTY, WI

M Squared Engineering (M<sup>2</sup>) serves the Town of Kewaskum in the role of Town Engineer. As their only devoted engineer, we are responsible for review of various plans, documents and applications related to private development affecting the public sector for the Town. M<sup>2</sup> supervises all engineering operations; oversees project design, bid awards, and project implementation. We meet with consultants to review project design status and provide direction. We are also responsible for ensuring technical compliance with local, state, and federal requirements in performing professional engineering services, including field survey, design, preparation of construction and bid documents, and review of plans and specifications for all Town construction and maintenance projects.
